PROFILE

Passionate and detail-oriented Front-End Engineer with over 3 years of hands-on experience building scalable, user-friendly web applications using Angular, TypeScript, and JavaScript (ES6+).
Strong background in UI architecture, responsive design, and API integration. Experienced collaborating with designers and backend teams to deliver high-quality, maintainable solutions that enhance user experience and business performance.

WORK EXPERIENCE

BETSOLUTIONS   DEC 2023 - PRESENT
Front-End Developer

- Developed and maintained multiple responsive web platforms using Angular 15+.
- Collaborated with backend engineers to integrate RESTful APIs and improve data flow.
- Enhanced UI responsiveness and accessibility, ensuring consistent performance across devices.
- Optimized casino web applications for performance and scalability across browsers and devices.
- Managing version control through Git, consistently updating project versions for optimal development workflow.

BMSystems   May 2023 - Nov 2023
Front-End Developer

- Led the UI development of the company's task management web application using Angular and TypeScript.
- Refactored a medical management web application used by doctors to manage patient information and internal processes, improving performance and maintainability.
- Worked closely with backend developers to streamline API integration and ensure seamless data flow.
- Implemented code optimization, lazy loading, and reusable components to enhance application speed and structure.

BMSystems   Jan 2023 - May 2023
Front-End Developer - Intern

- Learned Angular and gained experience in communicating with the backend team.
- Successfully implemented new features in a legacy website
- Managing version control through Git, consistently updating project versions for optimal development workflow.
